Woodruff's

Topper peas

Woodruff's Topper Peas mature in approximately 65 days. The yield is very heavy with excellent concentration of season at the main picking stage. Pods produce six to eight peas of excellent flavor and eating qualities.

Vines are 28 to 32 inches tall; stems are sturdy, foliage medium heavy.

Woodruff's Topper Peas show resistance to Fusarium Wilt and less tendency to burn than most varieties of the same maturity.

Order NOW from your nearest branch or the main office.
